

# SREEKALA K R

## SOFTWARE ENGINEER

[sreekalakr22@gmail.com](mailto:sreekalakr22@gmail.com) | +916238415930 | Ernakulam, KL, IND | [GitHub](#) | [LinkedIn](#)

### PROFILE SUMMARY

- Software Engineer with close to 3 years of experience building responsive and scalable web applications using Angular, React, TypeScript, and Node.js.
- Skilled in developing clean user interfaces, integrating efficient APIs, and building performance-driven applications.
- Passionate about solving real-world problems and delivering impactful solutions across diverse platforms and challenging environments.

### TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, SQL, Python
- Frontend: Angular (14+), React, Next.js, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS
- Backend: Node.js, Express.js, NestJS, Django
- Databases & Storage: MySQL, PostgreSQL, Cassandra, MongoDB, Redis, SQLite
- ORMs & ODMs: Sequelize, Prisma, TypeORM, Mongoose
- Cloud & Dev Tools: AWS, Git, GitHub, Postman, Visual Studio Code, Jira, Linear, Figma
- AI Tools & Platforms: ChatGPT, Cursor AI, Claude, GitHub Copilot, Gemini
- Authentication & Authorization: Auth0, JWT, OAuth 2.0, SSO, RBAC
- Architecture & Practices: Microservices Architecture, RESTful APIs, Performance Optimization, Agile Scrum
- Operating Systems: Windows, Linux

### PROFESSIONAL EXPERIENCE

ZeroNorth, Chennai | Software Engineer

NOVEMBER 2023 – FEBRUARY 2026

**Project:** SMARTShip – IoT-enabled vessel management platform for monitoring real-time vessel performance, machinery health, safety, and compliance.

- Migrated client-side storage from LocalStorage to IndexedDB to efficiently manage large real-time vessel sensor datasets.
- Upgraded Node.js and Angular versions to improve security compliance, stability, and application performance.
- Revamped and reskinned the application UI, improving navigation, usability, and cross-device experience.
- Developed dynamic, reusable Angular components for accurate and context-aware vessel data presentation.
- Utilized RxJS for reactive programming and efficient asynchronous data handling across complex application workflows.
- Integrated and consumed RESTful APIs to support real-time vessel monitoring and operational workflows.
- Fixed critical bugs, optimized application performance, and stabilized core business logic under heavy data loads.
- Automated voyage-related workflows, reducing manual configuration efforts and improving operational efficiency.
- Integrated Auth0 authentication and implemented Single Sign-On (SSO) for secure and streamlined user access management.
- Implemented Mixpanel event tracking to analyze user behavior and application engagement.
- Built automated email workflows for onboarding, password recovery, duplicate account handling, and user invitations.

- Collaborated with Product, QA, and DevOps teams in Agile sprints to deliver client-focused features aligned with business requirements.
- Monitored application reliability using AWS CloudWatch for proactive issue detection and system stability.
- Participated in code reviews and mentored junior developers, promoting best practices in Angular, RxJS, and clean code principles.

**Alpha Ori India Private Limited, Chennai | Intern**

**APRIL 2023 – OCTOBER 2023**

**Project:** Smart Voyager – Voyage planning and decision-support platform focused on route optimization, fuel efficiency, and operational safety.

- Developed and maintained frontend features using Angular and TypeScript within a component-based architecture.
- Built responsive user interfaces to ensure consistent user experience across multiple screen sizes and devices.
- Implemented interactive charts and reporting modules for real-time and historical voyage data visualization.
- Integrated RESTful APIs using Node.js to support dynamic data retrieval and alerting functionalities.
- Assisted in debugging, API testing, and feature development within Agile development cycles.

## EDUCATION

---

- B.Tech in Computer Science and Engineering | Mar Athanasius College of Engineering, Kothamangalam (2020-2023)
- Diploma in Computer Engineering | Govt. Polytechnic College, Kothamangalam (2017-2020)

## ADDITIONAL INFORMATION

---

- Languages: English, Malayalam and basics in Tamil and Hindi
- Nationality: Indian
